Professional Summary

Computer Science undergraduate skilled in Java, Spring Boot, Python, and full-stack development. Experienced in building AI-based systems and backend applications with database integration.

Education

B.Tech in Computer Science and Engineering

- Institute Of Aeronautical Engineering | Expected Graduation: 2027 | GPA: 8.05/10.0

Intermediate(XII)

- Alphores Junior College | 2021 – 2023 | Score: 937 / 1000

Secondary School (Class X)

- Shree Netaji Gurudev Gurukul | 2020 – 2021 | CGPA: 10 / 10

Technical Skills

Programming Languages: Java, Python, JavaScript

Frontend Development: HTML, CSS, React

Backend Development: Spring Boot, Node.js, Express.js

Databases: MySQL, MongoDB

Tools and platforms: Git, XAMPP, Visual Studio Code, Eclipse IDE

Internship Experience

Java Full Stack Developer Intern

Amdox Technologies – Electronic City, Bengaluru, India (Remote) | Dec 2025 – Feb 2026

- Developed a Task Management System to manage tasks, including task creation, updates, and deletion. Implemented CRUD operations and REST APIs using Spring Boot for efficient backend functionality. Integrated MySQL database to store and manage task data efficiently.

Projects

AI Resume Analyzer and Job Recommendation System

[GitHub Link](#)

Technologies: Java, Spring Boot, MySQL, HTML, CSS, JavaScript, Apache PDFBox, Chart.js, Spring Security

- Developed a system that analyzes resumes and recommends suitable job roles based on extracted skills. Built backend services using Spring Boot with MySQL database integration.

Medical Image Clustering and Tumor Detection System

[GitHub Link](#)

Technologies: Python, TensorFlow, Keras, OpenCV, Scikit-learn, NumPy, Pandas, Streamlit

- Developed an AI-based system to analyze and cluster MRI images for tumor detection. Implemented deep learning models such as Autoencoder and U-Net for feature extraction and segmentation. Built a Streamlit-based web interface to upload MRI images and visualize results.

Task Management System

[GitHub Link](#)

Technologies: Java, Spring Boot, MySQL

- Developed a web application to manage tasks including task creation, updates, and deletion. Implemented REST APIs and CRUD operations using Spring Boot for backend functionality.

Certifications

Oracle Cloud Infrastructure 2025 Certified Generative AI Professional - Oracle (August 2025)

AWS Academy Graduate – Cloud Foundations - Amazon Web Services (March 2026)

Python (Basic) - Infosys Springboard (June 2025)

Java (Basic) - Hacker Rank (July 2025) | SQL (Basic) - Hacker Rank (March 2025)
